Candle making, initially a hobby, dating back to 1967, developed in time and by 1975 turned into the professional production of Tay Candle, carried out in a small-size workshop.

About Us

Today, Tay Candle pursues its activities in its 1300 sq.m. premises, manufacturing high-quality products for Turkey and the world markets. Tay Candle products are in-house designed, inspired by Turkey's historic and cultural riches. They feature the notable characteristic of being entirely hand-made.

Inspired by Anatolian Civilizations

Born due to the designer's interest in archaeology, "Inspired by Anatolian Civilizations" was also featured as an exhibit in "The Women's Library and Information Centre Foundation" and gained acclaim. For many years, it has been exported to many countries around the world, led by Italy and Germany.
